1. Basis of Preparation

The summary consolidated financial statements are prepared in accordance with criteria developed by management. Under management's established criteria, management discloses the summary consolidated statement of financial position, summary consolidated statement of comprehensive income, summary consolidated statement of changes in equity and summary consolidated statement of cash flows. These summary financial statements are derived from the unaudited consolidated financial statements of Caribbean Cement Company Limited and its Subsidiaries (Group) for the period ended September 30, 2016, which are prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board, and the requirements of the Jamaican Companies Act.

2. Accounting Policies
These summary consolidated financial statements have been prepared in accordance with the accounting policies used in the audited financial statements for the year ended December 31, 2015. Any new accounting standards or interpretations which became effective in this financial year have had no material impact on the Group's financial position or results.

3. Earnings Per Share

Earnings Per Share (EPS) is calculated by dividing the net profit by the number of ordinary shares oustanding during the period.

4. Manpower Restructuring Costs

Manpower restructuring costs mainly comprise severance costs incurred during implementation of restructuring programmes. The objective of the restructuring programmes is to improve cost efficiency.

5. Stockholding and Inventory Restructuring

A review of inventory quantities on hand was undertaken during Q2 and Q3 2016. In accordance with IAS 2: "Inventories", management has recorded an expense of \$406.5 million in respect of overstocked items. This expense has been accounted for as a change in an accounting estimate consistent with IAS 8: "Accounting Policies, Changes in Accounting Estimates and Errors" resulting from new developments.

SUMMARY CONSOLIDATED UNAUDITED INTERIM FINANCIAL REPORT

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2016

DIRECTORS' STATEMENT

The Group reported consolidated profit before tax of J\$1,259 million for the first nine months of 2016 compared to a profit before tax of J\$1,702 million in the corresponding period of 2015; this represents an adverse movement of J\$443 million. During the reporting quarter the company embarked on a major kiln overhaul which lasted 45 days and impacted the income statement by US\$7.5 million. Along with the capital expenditure of J\$622 million invested this quarter, this is expected to lead to an improved operational efficiency and reliability of the plant. Other factors impacting the year-to-date performance were cement mill #4 overhaul, increased manpower restructuring costs (Note 4) and stockholding and inventory restructuring costs (Note 5).

Despite a reduction in export cement and clinker volumes by 16% and 84%, respectively, total revenue increased by J\$221 million. This was mainly due to the increase in local cement volumes by 18% arising from the good trend of the infrastructural projects and demand on retail which, however, were tempered by the inclement weather conditions during this quarter.

Earnings before interest, tax, depreciation, amortisation, manpower restructuring costs, and stockholding and inventory restructuring costs improved over the similar period last year by 25%, resulting from improvements in costs control. During the third quarter the Group generated cash from operations of J\$1.2 billion, which represents a

72% improvement over the third quarter of 2015, supported by the positive contribution of the changes in working capital as a result of optimal level of inventories and receivables by the end of this period.

The Board of Directors continues to be committed to improving and promoting the health and safety standards in our operation to create a better work environment to our people, as well as reinforce the profitability and competitiveness of the plant to maintain a good level of generation of cash.
